*Song Lyrics*

**“NEW DAY DAWNIN”**

By Lee Smedley

It seemed like the night would never end  
I wondered if the day would ever come again.  
And then a ray of hope broke through  
The light of possibilities anew.

**CHORUS:**

**Step with me to the light shinin' in.**  
**Step with me to the new day dawnin'.**  
**It's a day that's filled with possibility.**  
**It's a day that's made for you and for me!**  
**It's a day that's filled with possibility.**  
**It's a day made for you and for me!**

No sure things, no guarantees.  
No promises that can't be kept.  
It's just a chance, but a chance that I'll take.  
Step up now to the future we'll make.

This day calls for a new breed of leader.  
Ones who know our hopes and our dreams.  
Ones who listen more than they speak.  
Ones who strive their promises to keep.

Transform the business, it's a job we can do.  
Pullin' together, we can build somethin' new.  
Tools are important but never lose sight,  
We are the source of this company's might!

**It's a day that's filled with possibility.**  
**It's a day that's made for you and for me!**  
**It's a day that's filled with possibility.**  
**It's a day made for you and for me!**
