Song Lyrics

“TYPOLOGY BLUES”

By Lee Smedley

CHORUS:

Typology Blue, Typology Blues.

You can't talk to me. I can't talk to you.

Let's learn MBTI® through and through to cure our Typology Blues.

The E's want to talk, and then talk some more.

The I's they hardly talk at all, yeah, they're quiet to the core.

We must get together to work this thing out, and cure those Typology Blues.

CHORUS

The N's see the forest; the S's see trees.

We've got to get through this, help each other please.

I'll find the path; you make the turns. Let's cure those Typology Blues.

CHORUS

The T's love their logic, oh yeah, just like Spock.

The F's see our values as the keys that unlock.

Let's find a way to both think and feel. Let's cure those Typology Blues.

CHORUS

The J's want to get it done, yeah, they'll close the deal.

The P's need more data, they seek it with zeal.

Together we'll know before it's too late. To fish.....or keep cuttin' bait!

CHORUS

Well, you're not like me, it's not that tough.

What we can do together, yeah, is more than enough.

To get good work done and still have some fun. Good-bye Typology Blues.

FINAL CHORUS:

Typology Blue, Typology Blues.

Now you can talk to me, and I can talk to you.

We learned MBTI® through and through, so good-bye Typology Blues.

Good-bye Typology Blues. Good-bye Typology Blues.
